

REAR END PUMPS BY

Don't Run Behind.....

Get a Raceline Rear End Pump!

Raceline Oil Pumps, has created a rear end pump that is truly innovative. With our direct drive pump, you eliminate belts, mounting brackets, pulleys, and all the extra parts and expense associated with traditional belt-driven rear end pumps. Plus, you can never forget to turn our pump on!

Only 1.6" deep and weighing only 12 ounces, it has an output of more than 4 gallons of oil per minute.

One- and Two-stage pumps available with your choice of #6, #8, or #10 AN fittings.
